

NITIN YADAV

Full Stack & AI Developer

☎ +916266773188 ✉ nitinyadav484220@gmail.com 💻 nitin-yadav-8979b12aa 🔄 Nitinref 🌐 Codeforces 🌐 LeetCode 📍 Jabalpur, India

PROFESSIONAL SUMMARY

Full Stack & AI Developer with extensive experience in developing **production-grade applications** utilizing React, Node.js, TypeScript, and Python. Expertise in **LLM integration**, multi-agent AI systems, Docker, and AWS cloud infrastructure. Active contributor to the LangChain ecosystem, with a strong focus on scalable backend and AI-driven systems.

EXPERIENCE

Open Source Contributor

Dec 2025 - Jan 2026

LangChain.js

Remote

- **Identified** and **patched** a critical security vulnerability (CVE-2025-66414) in the **@langchain/mcp-adapters** package, integral to LangChain.js's MCP integration.
- **Upgraded @modelcontextprotocol/sdk** from v1.19.1 to v1.24.0, resolving the vulnerability without disrupting existing integrations.
- **Validated** the fix through comprehensive dependency resolution and lockfile regeneration (pnpm), ensuring compatibility across the Node.js ecosystem prior to merge.
- **Merged** contributions via Pull Request #9674 into a widely-used open-source library, achieving over 10K GitHub stars (**LangChain.js**).

Tech Stack : Node.js, Express

PROJECTS

Seezer.ai – AI-Powered React Application Builder | 🌐 GitHub 🌐 Live Demo

Mar 2026 - Present

Individual Project

- **Developed** an **AI-powered website generator** that converts user prompts into **React applications**.
- **Designed** a multi-agent workflow for **planning, code generation, validation, and build verification**.
- **Established** isolated execution environments using E2B sandboxes for secure AI-generated code execution.
- **Implemented** WebSocket-based live log streaming, significantly reducing user feedback latency during builds.
- **Created** a PostgreSQL + Prisma persistence layer for effective multi-session project state management.

Tech Stack : React, Express, Node.js, Tailwind CSS, E2B, LangGraph, JavaScript

Doco – Self-Hosted Container Deployment Platform | 🌐 GitHub 🌐 Live Demo

May 2026 - Present

Individual Project

- **Developed** a **container deployment engine** for one-click Docker deployments through a web interface.
- **Integrated** the Docker Engine API to automate container creation, image pulling, and lifecycle management.
- **Implemented** a dynamic reverse proxy infrastructure with automatic subdomain allocation for deployed services.
- **Architected** secure multi-container communication using Docker networking and service isolation.
- **Managed** the cloud deployment pipeline on AWS EC2, incorporating Nginx reverse proxy, PM2 process management, and SSL configuration.

Tech Stack : Express, Node.js, Tailwind CSS, AWS, Nginx, Docker, JavaScript, Next.js

EduFinance – Financial Literacy Platform | 🌐 GitHub 🌐 Live Demo

Apr 2025 - Present

Full Stack Developer

- **Engineered** a gamified financial literacy platform featuring **AI-driven** personalized learning recommendations.
- **Designed** a **MongoDB** schema optimized for scalable progress tracking and analytics throughout user learning journeys.

Tech Stack : React, Node.js, MongoDB, Groq AI, TypeScript

Sigato | 🌐 Npm 🔄 Github

Aug 2026

Individual Project

- **What it is**: A transparent CLI (command-line) agent that plans, executes, and automates complex developer tasks
- **Core philosophy**: Keeps you in control — every meaningful action is shown before it runs, with approval gates for sensitive operations
- **Built for**: Developers who want an AI agent that's powerful but trustworthy, not a black box
- **Runtime**: Built on Bun for fast startup and responsive execution

Tech Stack : Node.js, Express, Tailwind CSS, React

ACHIEVEMENTS

- **Ranked #1,235** out of 2,248 teams nationwide in the **ICPC Amritapuri Prelims 2025** (Team: ByteGG), successfully solving 3 problems.
- Achieved a **Top 100 position** (Top 3.4%) among 2,900+ teams and 5,700+ solo hackers in **HACKHAZARD '25**.
- Solved over **200 DSA problems** across **Codeforces** and **LeetCode**, demonstrating strong competitive programming skills.

SKILLS

AI/ML :	LangChain, LangGraph, RAG, LLMs, Generative AI, Applied AI
Databases :	MongoDB, Redis, MySQL, QdrantDB, PostgreSQL
Domain :	WebSockets, REST APIs, JWT Authentication
Programming Languages :	C++, Python, TypeScript, JavaScript
Frameworks & Libraries :	React, Node.js, Express, Tailwind CSS
Tools & Platforms :	AWS, Docker, Git, GitHub, Linux, CI/CD, Postman, Nginx

EDUCATION

Gyan Ganga Institute of Technology and Science | Jabalpur, India

Aug 2023 - May 2027

Bachelor of Technology in Computer Science Engineering (B.Tech CSE)

CGPA : 7.2/10.0

CERTIFICATIONS

- **AWS Certified Cloud Foundation** - Amazon Web Services
- **Generative AI with AWS** - Amazon Web Services
- **Python Programming** - Cisco Networking Academy
- **Linux Essentials** - Cisco Networking Academy
